

Editing User Information

phoenix

Login Screen

- Enter username into the “Username” field **Note: Username can contain a maximum of 8 character**
- Enter password into the “Password” field **Note: Passwords are case sensitive. Passwords must be 8 to 40 characters long and contain 3 of 4 entities (upper case, lower case, number, and symbol)**
 - e.g. (Karlpop2, sandwich\$, pirate@50, Bob%Smith)
 - Changing passwords (see “**Changing User Password**”)
- Solve math problem then click “**Continue**”. After 3 unsuccessful attempts, the user will be locked out and will need to contact the Phoenix helpdesk for assistance or wait 30 minutes to login.

The screenshot shows the Phoenix login interface. On the left is the Phoenix logo. The main area contains a message 'You have been logged out.' followed by input fields for 'Username' and 'Password'. Below these is a math problem 'What is 2 + 12?' with an input field. A 'Continue' button is at the bottom, circled in red. Red arrows point to the Username, Password, math problem, and Continue button fields. A padlock icon is visible in the top right corner. At the bottom, there are links for 'Login' and 'Forgot Password?'. A legal disclaimer is at the very bottom.

You have been logged out.
