

Assessment

phoenix

Creating an Assessment

- From the Participant's dashboard, click "Assessment"

The screenshot shows the Phoenix Participant's dashboard for Anna Match. The top navigation bar includes links to HOME, Dashboard, Participants, Providers, Waiting Lists, Reports, Inbox (2), Issues, Help, and a user profile (JA). The left sidebar lists various sections like Collapse sidebar, Dashboard, Participants, Providers, Users, Workers, and Anna Match, with a list of sub-items including Addresses, Applications, Approval Requests, Assessments, Attendant Care Requests, Bedbug Assessments, Caregiver Supports, Claims, Comments, Conversations, and Critical Incidents. The main content area shows the 'Dashboard' tab selected, with a red arrow pointing to the 'Assessments' tab. Below the tabs, there's a 'Participant Overview' section with 'Overall Status' (active) and 'Initial Intake Date' (08/29/2016). The 'Current Address & Phone Number' section is partially visible at the bottom.

Street	City	State	Zip

Creating an Assessment

- Click “Create a New Assessment”

The screenshot shows the Phoenix system interface. The top navigation bar includes links for HOME, Dashboard, Participants, Providers, Waiting Lists, Reports, Inbox (with 2 notifications), Issues, and Help. The left sidebar lists various system components, including Anna Match, Addresses, Applications, Approval Requests, Assessments, Attendant Care Requests, Bedbug Assessments, Caregiver Supports, Claims, Comments, Conversations, and Critical Incidents. The main content area is titled 'Assessments' and shows the user (9633460) Anna Match. A red arrow points to the 'Create a New Assessment' button, which is highlighted in green. Below this button, there are two sections: 'Incomplete Assessments (0)' and 'Completed Assessments (2)'. The 'Completed Assessments' section contains a table with the following data:

Program	Type	Create Date	Assessment Date	Assessed By	Actions
Community Choices assessment completed 08/29/2016		08/29/2016	08/29/2016	Laura Kelley	Review View PDF Edit service plan
Community Choices modified assessment completed 08/29/2016		08/29/2016	08/29/2016	Laura Kelley	View PDF

Creating an Assessment

- Clicking the “Question Mark” icon will display general instructions on how to create an assessment

Assessment Type **required**

HOME Dashboard Participants Providers Waiting

Select the program for which the individual is being assessed by clicking on the Program drop-down arrow and click on the appropriate program. An individual may have multiple program applications and corresponding assessments. Be careful to select the program intended as the related assessment is linked to other parts of the individual's record and prompts other needed information.

To create a new assessment, click on the "Create a New Assessment" button. For detailed policy on the Assessment process, see also the related CLTC Policy and Procedure Manual, Assessment Chapter, HIV/AIDS, Ventilator, Children's Personal Care Aide, Children's Private Duty Nursing, Medically Complex Children, TEFRA, HASCI, and the Assessment and Level of Care Users Guide.

Assessment Details

1. If this is a waiting list applicant, a phone assessment should be completed as a part of Intake. Be sure to check the Phone Assessment box so the abbreviated phone assessment will be created and so the appropriate waiting list status will be created. If this assessment is something other than a waiting list Phone Assessment, leave this box blank.
2. Enter an Assessment date in the "Assessed On" box or select a date from the calendar link.
3. To create a new assessment, click on the "Create a New Assessment" button.
4. Once all the appropriate information has been entered on this screen, click on the "Create New Assessment" button. This advances the assessor to the opening Assessment section, Medical -Diagnoses/Conditions.

Creating an Assessment

- From the “**Assessments**” screen, select program from drop box. **Note: Only the programs with an open “Application” will be displayed as a choice**
- Enter date in the “**Assessed on**” Field
- Select the appropriate “**Assessment Type**” (Face to Face, Phone, or Paper Review)
- Click “**Create Assessment**” **Note: Assessments are tailored to the program (i.e. HIV has all sections, NHT has less sections)**

Creating an Assessment

- The “Assessment” screen contain tabs and sub tabs
- On the Assessment screen, **ALL** the **red** lights for each tab must be **green** in order to have a completed assessment

The screenshot displays the Phoenix Assessment interface. At the top, a header bar shows the patient name 'Anna Match' and the assessment date '04/06/2020'. Below this is a navigation bar with icons for Assessments, Narratives, Medications, Service Plans, and Caregiver Supports. The main content area features a series of tabs: Medical, Skin/Nutrition, ADLs, Communication/Psychosocial, IADLs, Review, and Source of Information/Level of Care. Each tab has a red status indicator (a small red circle with an exclamation mark). Below these tabs is a sub-tab bar with three sub-tabs: Diagnoses/Conditions, Treatments and Therapies, and Risk Factors, each also featuring a red status indicator. Two red arrows point to the red status indicators on the 'Medical' tab and the 'Diagnoses/Conditions' sub-tab. The 'Diagnoses/Conditions' sub-tab is currently active, showing a form with two columns: 'Existing' and 'Current/New Diagnoses'. The 'Current/New Diagnoses' column contains a 'Category' dropdown menu, a 'Diagnosis' dropdown menu, an 'Add Diagnosis' button, and a 'Search' field.

Creating an Assessment

- At the bottom of each Assessment tab, there are two options:
 - “**Save**”- Save function allow the user to save the data entered, make edits, visit other sections, and complete the assessment later. **Note: The lights will remain red until the section is “Save and Complete”**
 - “**Save and Complete**” - Saves data on each completed Assessment tab. The lights will turn **green** when the section is “Save and Complete” **Note: Edits can be made to Assessment tabs until the Assessment is signed and saved**
