

Referrals

phoenix

Referrals

- **Reminder: Electronic referrals can only be made for services included in the service plan**
- A “proposed” service schedule is entered for the referral information
- If a provider declines a referral or does not respond within **48 hours**, Phoenix automatically sends the referral to the next provider.
- Phoenix checks the status of referrals at the top of every hour
- Providers can accept, decline, or ignore a referral
- When the provider accepts a referral, the CM needs to “**Accept**” the provider. If the provider accepts, comments can be included which might change the start date.
- Authorization should be created from referrals that they are associated and **NOT** by selecting a “**New Authorization**”

Service Authorization

- If a service is not included in the service plan it CANNOT be authorized.
- If you need to authorize a service that is not included in the service plan, you need to edit the service plan to include interventions for service.
- For electronic referrals, the schedule on the authorization defaults to what was in the referral and can be changed
- When a referral for Environmental Modification, Ramps, or Enhanced Pest Control is accepted, **the case manager will not create the service authorization until the work has been completed**
- Once the work has been completed, **the case manager will complete the authorization**

Referrals

- On the Participant's dashboard screen, click **“Waiver Supports”**

Referrals

- On the Waiver Supports screen, click “**Service Provider Report**”

The screenshot shows the 'Waiver Supports' interface. At the top, there's a header with the 'Waiver Supports' title and a user profile '(9626568) Allison R Last'. Below this is a navigation bar with icons for Home Assessment, PASARR, Waiver Supports, Non-Waiver Supports, Claims, and Forms. The 'Waiver Supports' icon is highlighted. Below the navigation bar, there's a row of links: 'Open Authorizations (0)', 'All Authorizations (0)', 'Active Referrals (0)', 'All Referrals (0)', 'Service Provider Report' (circled in red), and 'New Referral'. Below this row, there's a 'New Authorization' link. The main content area is titled 'Open Authorizations' and contains a table with columns: SERVICE, TOTAL UNITS, START DATE, END DATE, PROVIDER, STATUS, and ACTIONS. The table is currently empty, showing 'No authorizations for this client'. At the bottom, there's a footer with the Phoenix logo, a 'Report a Problem' button, a user ID 'squid:2cea02c', and a list of links: Documentation, Broadcasts, Phoenix Help, and Known Bugs/Feature Requests.

Referrals

- Select service(s) from Provider Service List then click **“Create Report”** at the bottom of the screen
- Once the Provider List is completed, click **“Print Service Providers”**
- Provider list requires a password
 - Password is the Participant’s CLTC number
