Assessment/Service Plan Changes Table of Contents

- 1. **Assessment Changes** 3 - 7
 - 1. Mood/Behavior Patterns Subtab..... 4 - 7
- 2. **Service Plan Changes** 8 - 26
 - 1. Strengths Tab 8 - 9
 - 2. Personal Goals Tab 10 - 26

Assessment/Service Plan Changes

Users must address behaviors regarding the participant being “**Socially Isolated**” and “**Withdrawal from leisure activities**” in the Assessment – Communication/Psychosocial section (Mood/Behavior Pattern subtab).

Assessment/Service Plan Changes

Assessment – Communication/Psychosocial

Mood/Behavior Patterns Subtab

- A summary regarding being “**Socially Isolated**” and “**Withdrawal from leisure activities**” behaviors is displayed.
- Users can get additional information from the CLTC Policy and Procedure Manual, Assessment Chapter, and the Assessment and Level of Care Users Guide.

The screenshot displays the CLTC Assessment/Service Plan interface. The top navigation bar includes tabs for Assessments, Narratives, Medications, Service Plans, and Caregiver Supports. The 'Assessments' tab is active, showing subtabs for Medical, Skin/Nutrition, ADLs, Communication/Psychosocial, IADLs, and Review. The 'Communication/Psychosocial' subtab is selected and highlighted with a red circle. Below this, the 'Mood/Behavior Patterns' subtab is also highlighted with a red circle and a red arrow. The main content area contains instructions for assessing waiver participants and a section for documenting behaviors. The 'Existing Behaviors' section is empty. The 'New Behavior' section has a 'Behavior:' dropdown menu and a 'Level:' dropdown menu. The 'Previous Behaviors' section is also empty.

Assessment/Service Plan Changes

Assessment – Communication/Psychosocial

Mood/Behavior Patterns Subtab

- Under “**New Behavior**”, click dropdown box
- A list of behavior types is displayed
- Select the behavior “**Socially Isolated**” or “**Withdrawal from leisure activities**”

The screenshot displays the 'Mood/Behavior Patterns' subtab, which is highlighted with a red circle. The interface includes a navigation bar with tabs for Communication, Vision, Memory, Cognitive Skills, Mood/Behavior Patterns, and Problem Behavior. Below the navigation bar, there is a section for 'Waiver participants' and a list of behavior types. A dropdown menu is open, showing a list of behaviors: Demonstrated signs of mental distress, Failure to eat, Failure to take medications, Homicidal thoughts/actions, Motor agitation (pacing, handwringing, picking), Persistent concern with health, Recurrent thoughts of death, Socially isolated, Suicidal thoughts/actions, Verbal expressions of distress by participant, Withdrawal from leisure activities, and Withdrawal from self-care activities. Two red arrows point to 'Socially isolated' and 'Withdrawal from leisure activities'. Below the dropdown, there is a 'Level:' dropdown menu. At the bottom, there are two orange buttons labeled 'Existing Behaviors' and 'Previous Behaviors'.

Assessment/Service Plan Changes

Assessment – Communication/Psychosocial

Mood/Behavior Patterns Subtab

- After selecting the **“Socially Isolated”** or **“Withdrawal from leisure activities”** behavior, click the **“Level”** dropdown box
- Select whether the **“Socially Isolated”** or **“Withdrawal from leisure activities”** behavior is:
 - **“Present”**
 - **“Not Present”**
- Repeat the previous step and select the other behavior **“Socially Isolated”** or **“Withdrawal from leisure activities”**
- Add an other behaviors that the participant is exhibiting

Waiver participants must be assessed for the "Socially isolated" and "Withdrawal from leisure activities" behaviors in order to turn this tab's light green.

If the participant indicates that they are experiencing these as new or existing behaviors, discuss these behaviors with the participant, document responses in the Comments section below, and create Custom Needs/Goals/Interventions in the Service Plan.

In having this conversation, it may be helpful to think of social isolation and loneliness as a difference between the amount of social contact/support someone wants, and the amount they are getting. One way to begin this discussion is to ask the participant "how often do you feel isolated from other people?" Other questions which may assist are "How many relatives/friends do you see or hear from at least once a month?" and/or "how many people do you feel at ease with that you can talk about private matters?" and/or "how many people do you feel close to such that you could call on them for help?" Again, please document responses/any additional information reported in Comments.

For detailed policy on the Assessment process and standards, see the related CLTC Policy and Procedure Manual, Assessment Chapter, and the Assessment and Level of Care Users Guide.

Assessment/Service Plan Changes

Assessment – Communication/Psychosocial

Mood/Behavior Patterns Subtab

- Click **“Save”** or **“Save and Complete”**
 - “Save”** will not turn the lights **green** until **“Save and Complete”** is selected.
 - Users can't visit or complete the **“Source of Information/Level of Care”** tab until the **“Socially Isolated”** and **“Withdrawal from leisure activities”** behaviors are answered, and Mood/Behavior Patterns subtab is **“Saved and Completed”**

Strengths Tab

- Users do not have to complete the “**Strengths**” tab in the order the tabs are displayed. Users must complete the “**Strengths**” tab before the Service Plan can be signed off
- A summary regarding “**Strengths**” will be displayed.
- Users can get additional information from the CLTC Policy and Procedure Manual
- Enter a detail comment regarding the participant’s strengths.
 - **The Strength narrative must be at least 255 characters in order to save complete the service plan**
- Click “**Save**”

Participant Strengths

Identifying a participant's strengths is an important part of the assessment/service planning process. When thinking about content to enter in this module, consider strengths that help the participant remain in the best possible health while living in their chosen setting. Some examples of strength areas include, but are not limited to, social relationships/connections, family supports, mental health, self-care skills, talents/interests, and education/training.

IMPORTANT: Minimum of 255 characters required, currently at 0 characters (Click 'Save' to update current character count)

Jane Doe has social support from concerned neighbors and family. Her neighbor Sally Smith checks on her daily either by phone or in-person. The participant's daughter/PC Kayla also checks on her well-being daily. The participant is aware of the warning signs that exist with her diagnoses and knows to use her PERS device if she believes a seizure is about to occur while she is home alone. Additionally, the participant states she receives a lot of positive mental health benefits from her dog Max, as the dog provides constant company and stress-relief for the participant.
