

Advanced Pest Control Standards

A. Overview

Advanced Pest Control services aid in maintaining an environment free of bedbugs to promote safety, sanitation, and cleanliness of the participant's residence. Once the existence of bedbugs is established as existent within the home, providers treat the residence to eliminate infestation. The provider must return to the home and provide re-treatment as necessary within a one-year warranty time frame from the authorization of initial treatment.

B. Description of Service:

Advanced Pest Control provider sends the following information to the Case Manager:

- Confirms bedbug infestation
- States the specific type of treatment to be used
- Provides photo or photos of bedbugs found
- States the total cost of treatment
- Describes the steps that must be taken by the participant in preparation for successful treatment
- Describes the likelihood of successful eradication
- Agrees to provide fitted mattress covers for affected areas
- Provides a written one-year warranty of service

The provider provides the Case Manager with the above required documentation. Authorization for Advanced Pest Control must not be created until provider has confirmed eradication of bedbugs in Phoenix for the Case Manager. Advanced Pest Control may only be authorized once per lifetime.

Any exceptions to this policy must be approved by WES@scdhhs.gov.

The Advanced Pest Control provider must return to the home and provide re-treatment as necessary within the one (1) year warranty timeframe, which begins on the start date of the authorization.
